

Service project using outdated maps

Samuel R. Brown, Ph.D.

Maps are cut into 8 ½ inch squares.

Each square is paired with two 3 inch squares.

The 8 ½ inch squares are folded into origami frames. The 3 inch squares are placed on the front and back of the frame.

And then folded in half to make it easier for shipment

The final step is packing the folded frames into a box where they will be included in care packages for service men and women stationed around the world.

This is an origami frame from the project as seen through the cockpit of a fighter jet flying over Iraq.
